KEYNOTE SPEAKER

JULIE LYTHCOOTT-HAIMS

A graduate of Stanford and Harvard Law, Julie Lythcott-Haims practiced law in the Bay Area for many years before returning to Stanford as an Associate Dean, and then Assistant to the President (John Hennessy). After that, she spent a decade as the Dean of Freshmen, a position she created in 2002. Almost 20,000 undergraduates matriculated on her watch, and in 2010 she received the university’s Lloyd W. Dinkelspiel Award. To her students she was affectionately known as “Dean Julie.” Lythcott-Haims stepped down from her administrative job at Stanford in 2012 to pursue an MFA in Creative Writing (poetry) at California College of the Arts in San Francisco. She is deeply interested in humans living lives of meaning and purpose, and enjoys working with humans of all ages interested in finding their authentic self and honoring what they hear. In June of 2015 she released her book, How to Raise an Adult: Break Free of the Overparenting Trap and Prepare Your Kid for Success. After years of speaking to students, family, faculty, and University administrators as Dean of Freshmen at Stanford, she is an engaging, inspiring speaker who takes pleasure in working with her audiences.

DENICE SCALA

Denice’s passion for the difference education can make spans over thirty years with twenty-two as a leader working in Australia and internationally in both single sex and co-educational environments.

Formerly Principal at MLC School, Sydney and St Andrew’s School, Adelaide, Denice has had previous appointments as Head of Junior School at St Catherine’s Sydney and Head of a Learning Support Department at Dollar Academy Scotland. She is an accomplished and experienced leader with a deep compassion for students. Denice’s philosophy is one of giving young people a voice and designing avenues for educators and parents to work together to prepare students to be world ready.

Currently working freelance as a Leadership Consultant, Denice will share her experiences as an educator and a mother considering what blind sights us into believing that solving our children’s problems for them is a sensible idea!

MARGOT FRANKLIN-HENSLE

Margot Franklin-Hensler has spent much of her life overseas; growing up in Thailand, The Netherlands and Malaysia. She became a boarder at MGGS in Year 7 while her parents continued to work abroad in Nigeria, China and Qatar. Margot gained degrees in Commerce and Engineering from the University of Melbourne. From university, she joined a multinational oilfield company and her very first role as a newly graduated engineer was in remote, central Myanmar working as a field engineer on oil rigs. She successfully learned how to navigate the local nuances as well as the work and has since worked in Qatar, Abu Dhabi, Canada and China. Last year, Margot returned to Australia and is adjusting to life back in the motherland.

New experiences and overcoming obstacles drive Margot. She continues to enjoy the challenges she faces in these unconventional environments. Her six years as a boarder at Marion Hall gave her a strong foundation of self-esteem which has allowed her to seize these opportunities when they arise and see where they take her.
